# THE PACE MODEL

Discovery Grammar Model

PRESENTATION

- Choose a resource that contains the targeted grammar
- Guide learners through comprehending the resource for **meaning**
- Use pre/during/post interpretive activities to guide learners
- This should take a few lessons (1-3)

ATTENTION

- Highlight the grammar point to the learners
- Bold or color code the word/words you want them to focus on
- This should take a few minutes

CO-CONSTRUCTION

- Give students some guiding questions as they go through the text
- Engage in a **dialogue** between you and them to discover the grammar
- Focus on why this grammar is needed and how to form it
- This should take 10-20 minutes

EXTENSION

- Choose meaningful activities to extend the learning
- Relate the unit theme with the newly discovered grammar
- Show students why they need this new grammar to complete these tasks
- This should last several classes/weeks
